<p>PA Required Date - Date physicians/prescribers and providers are required to request and obtain PA for non-preferred drugs on the PDL in order for prescription to be dispensed. This is also the first date drug claims will begin to deny if approved PA number is not submitted for non-preferred drugs listed on the PDL.</p>	
<p>STAT PA - Dispensing providers may obtain PA for the second group of non-preferred drugs added to the PDL starting December 16, 2004, except for PPIs which may be obtained starting January 19, 2004. For STAT PA requests, the date of service may be up to 31 days in the future or up to 14 days in the past.</p>
